The Renter understand this Agreement is subject to status and to Callmonitor Limited's rental terms printed overleaf, which I agree to. I am over 18 years of age. I (we) agree to pay rental charges, call charges and any charges for other services at the rates quoted above. I agree to be held personally liable in the event that the company or organisation for whom, the equipment is hired fails to pay any outstanding charges as and when they become due.

I will check the handset is in good order on delivery and understand that I must notify Callmonitor within 2 hours of receipt if this is not the case. I will make a test call from the handset before travelling to ensure proper operation and familiarity with how the service performs. In the event of equipment failure I understand Callmonitor will only arrange to swap the equipment at a UK mainland address. I understand calls are charged by the minute.

We will deliver the handset to you on the Rental Start Date. Rentals cannot start on a weekend or English public holiday. Any reservations where the requested start or end is on a weekend or public holiday, will be treated as if the next business day had been selected. The handset and all accessories must be returned to us the working day following the Rental End Date. If you wish our courier to collect the equipment at the end of the rental you must telephone us once the equipment is ready for collection. Rental dates may be extended with at least three working days notice, prior to the Rental End Date by emailing support@callmonitor.com. Late returns will be subject to the Late Return Daily Charge detailed above in addition to the normal rental charges.

Customer agrees to abide by all of the current regulations in effect in countries where the equipment may be used, including the purchase of all required licenses. Callmonitor Ltd cannot be held responsible for any operational restrictions, customs, license or permit fees required for operation in the destination country. In addition, Callmonitor Ltd holds no responsibility for fines associated with terminal seizure nor for legal implications of using satellite communications equipment in countries or territories where it is prohibited. Customers are recommended to contact the Embassy or Trade Commission of the destination country, prior to entry into any country.
